Should I Process a Credit Balance from Bell Mobility in FIS?

The short answer is **NO**. For active accounts, Financial Services recommends Departments not process credit balances from Bell Mobility. The credit amount is recorded on your account with Bell Mobility and will be applied against future charges.

Each U of T cheque includes payments currently due from all U of T departments. Processing a credit memo results in a reduction in the overall amount paid to Bell Mobility. There have been issues with Bell Mobility not applying credits to the correct Bell account, resulting in late payment fees.

For large credits on accounts that are closing and have a credit balance, a cheque should be requested from Bell Mobility.

PO Workflow: Changes to FIS Purchase Orders

Effective August 1, 2018, **end users at the St. George campus** will be able to create an FIS Purchase Order (including Lease Orders) at or greater than \$25,000 without first creating a Purchase Requisition. With this new functionality, documentation is attached to the Purchase Order in SAP, which is automatically routed to Procurement Services for review and release.

Procurement Services and FAST will be holding information and training sessions throughout the month of July. To register and for more information, see the on the Procurement Services website <u>recent news story</u>
